CCI/CoakleyTech Adds Intelligent Mail Inserting System

HARTLAND, WI (July 26, 2010) – CCI/CoakleyTech recently added a Standard KAS MailMaster 465HS Mail Inserting System to their Mailing Services Department. The inserter handles #10 to 10" X 13" envelopes, inserting at speeds of up to 6,000 envelopes per hour.

According to Steve Henck, VP of Production, "The 465HS is a great addition to our mailing operations. It has enabled us to expand our mailing capabilities and its intelligent inserting, flexibility, and efficiency have helped us maximize our customers' direct mail return on investment."

This comprehensive enveloping system offers modularity, durability and ease of set up. Insert stations can handle a wide variety of material including single sheets, cards, reply envelopes, pre-loaded items and booklets.

About CCI/CoakleyTech

CCI/CoakleyTech is a world leader in print and document management solutions. Focusing on *Beyond Ink* solutions and *Intelligent Production* processes, the company bundles services like traditional printing, print-on-demand, inventory management, eBusiness applications, and variable information applications into value packages that create complete solutions. These solutions are led by Publication Zone[®], an online print and document management system. CCI/CoakleyTech is a privately held corporation owned by TouchPoint Print Solutions Corp., a holding company of Huron Capital Partners LLC. The TouchPoint platform is focused on building a full-service printing and document management business providing customers with solutions in web-based, sheet-fed and digital printing media. Headquartered in Hartland, Wisconsin, CCI/CoakleyTech operates facilities throughout Wisconsin and Arizona and can be found on the web at www.comcom.com.
