CCI/CoakleyTech Positioned to Support Global Document Management

HARTLAND, WI (May 18, 2010) – CCI/CoakleyTech, a leader in print and document management solutions, is now strategically positioned to support companies' document management processes on a global scale.

"CCI/CoakleyTech has the tools and strategic partners in place to support our clients' print and document management programs on a global basis," said Chris Illman, President and CEO. "With Publication Zone, our online document management & ordering solution, and our network of global partners, we can effectively manage our customers' documents from anywhere in the world."

CCI/CoakleyTech's line of eBusiness applications can be translated to accommodate any language, and the company has gathered a team of the world's best print and document management companies to support these processes:

Kempenfelt Graphics (Canada) - Kempenfelt Graphics has the marketing solutions, the technology and over 30 years of expertise to help support your print and document needs. Leveraging quality digital and offset printing, complete bindery capabilities, graphic design, and Web marketing expertise, Kempenfelt offers one of the most robust service offerings in Canada. <http://www.kggdigital.com>

DPN (Europe) - With facilities located in Gothenburg and Malmö, Sweden, dpn focuses on the graphic production of marketing collateral, digital print, and the storage and distribution of printed materials. dpn has a number of services for producing marketing and technical documentation for B2B companies, including manufacturing, pharmaceutical, and retail organizations. <http://www.dpn.se>

Jielong Group (China) - Founded in 1973, Jielong Group is one of the most sophisticated printing enterprises in China. Based in Shanghai, Jielong Group also has offices in the U.S. and offers a wide range of services and products, including packaging and printing services for color surface cartons, color boxes, books, picture albums, catalogs, newspapers, business forms, envelopes, labels, wrapping paper, iron printing canning, PVC laser cards, etc. Finishing capabilities include die cutting, dinting, varnishing, calendaring, bronzing, laminating, folding, collating, etc. <http://www.jielong-printing.com>

COS Printers (Singapore) - C.O.S. Printers Pte Ltd, based in Singapore, provides total printing services to the international publishing industry. Known for its quality printing of books, brochures, magazines, and related products, C.O.S. is committed to using new technology to increase book production efficiencies. C.O.S.'s full line of services includes digital file management, scanning, computer-to-plate and computer-to-film processing, monochrome to full-color printing, binding, and delivery. <http://www.cosprinters.com>

ENSEL Technologies (Mexico) - ENSEL Technologies offers digital print-on-demand, traditional printing, finishing, fulfillment and distribution services from its facility in Monterrey, Mexico. ENSEL has the equipment and technology in place to support all your print and fulfillment needs. <http://www.ensel.com/mx>

About CCI/CoakleyTech

CCI/CoakleyTech is a world leader print and document management solutions. Focusing on *Beyond Ink* solutions and *Intelligent Production* processes, the company bundles services like traditional printing, print-on-demand, inventory management, eBusiness applications, and variable information applications into value packages that create complete solutions. These solutions are led by Publication Zone[®], an online print and document management system. CCI/CoakleyTech is a privately held corporation owned by TouchPoint Print Solutions Corp., a holding company of Huron Capital Partners LLC. The TouchPoint platform is focused on building a full-service printing and document management business providing customers with solutions in web-based, sheet-fed and digital printing media. Headquartered in Hartland, Wisconsin, CCI/CoakleyTech operates facilities throughout Wisconsin and Arizona and can be found on the web at www.comcom.com.
